Dear Valued Customer:

PSE&G's Direct Install Program helps local and state government, non-profits, and businesses within Urban Enterprise Zones (UEZ) become energy efficient via discounted lighting retrofits and Heating, Ventilation, Air Conditioning, and Refrigeration (HVACR) upgrades.

PSE&G will pay for 100% of the upfront costs, with customers repaying as little as 20% of the total, interest-free, over 60 months on their PSE&G bill (or in one lump sum payment, if preferred). Eligible commercial facilities must receive natural gas and/or electricity from PSE&G, have peak demands of 200 kW or less, and an acceptable PSE&G bill payment record.

This letter will confirm that Tri-State Light & Energy, Inc. (TSLE) was selected as a result of a PSE&G competitively bid process and is authorized by PSE&G to provide on-site energy audits, project development and installation under its Clean Energy Future Direct Install Program in Essex, Mercer and Union Counties.

Through PSE&G's Direct Install Program, TSLE will provide program participants with a free on-site energy audit, recommend energy efficiency upgrades, give a detailed cost estimate, and be responsible for completing installations on behalf of PSE&G.

Any questions please contact Stacey Haggerty, Direct Install Program Manager, via email at Stacey.Haggerty2@pseg.com.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Bartley", is written over a horizontal line.
